

Closure Document

Total Nederland Dealersite

The present document certifies the culmination of the Project named as: **Total Nederland Dealersite**, which has been developed for Tierra Network, covering the activities specified in the planning, the delivery and approval of the offered products in the project scope and its deployment, at January 17th of the current year. Delivered products are:

1. Web site facilities that support the daily work of interrelations with the suppliers of Total Nederland. These facilities are detailed in **Total Nederland – Dealersite Project Requirements Specification** document
2. Site Content Administration Facilities, provided by WiB 3 and a N2C backoffice.
